** ALGERIA [and non]. 17600, Sept 12 at 1503, JBA carrier direct, presumed Ifrikya FM which was missing yesterday, but now during almost-blackout K index 7, hardly any other signals on band except 17790 WRMI (Glenn Hauser, OK, WOR)

** BOTSWANA. 5925, Sept 14 at 0412, rock music, poor signal, need LSB tuning to minimize the hash from 5935 WWCR. EiBi shows it`s merely VOA English at 0300-0500 (Glenn Hauser, OK, WOR)

** BRAZIL. 28270.5 CW, Sept 18 at 2204, only beacon heard is dash VVV PY4MAB. Higher on 28 MHz, only one unID phoner in quick scan. WGB list:
``28270.5 PY4MAB - Poços de Caldas MG BRA GG68re - #0/1/3 (14 Sept 2024) Note: VVV ID + grid + BCN + 5" carr. Cobra 142 gtl mod. ant vert 10w`` - QRZ.com:
``PY4MAB Brazil flag Brazil, MAURICIO BERALDO, LUIZ ZANGIACOMI 145, POÇOS DE CALDAS MG ZIP CODE 37704-274, MG, Brazil``
https://www.qrz.com/db/PY4MAB
includes brief biography, linx to social media, huge photo gallery of equipment, the city, wildlife, nary a human, and: ``I have a Radio Beacon on the frequency of 28.270.5 CW, 24 hours a day, vertical antenna, 10 watts of power. In 2020 it will be 10 years since Beacon is on the air. Whoever receives the signals and sends me a confirmation by letter I will respond to everyone and send a special QSL card from my city.`` As name implies, city is known for its hot springs (Glenn Hauser, OK, WOR)

** CANADA. 6070-, Sept 13 at 0700, CFRX but a JBA carrier in disturbed northerly propagation rather than usual reliable signal (Glenn Hauser, OK, WOR)

** CANADA. 28174 CW, Sept 16 at 2203, VVV DE VE1VDM/B and 8 dits/E`s. Beacon already logged Sept 7: see that for details (Glenn Hauser, OK, WOR)

** CANADA [non]. Re: https://www.w4uvh.net/PopShop11990WOF.png
-- Tony Pavick [or #147 via:]
http://www.worldofradio.com/QSL.html
I wonder about source and significance of that art:

``Glenn -- the mural was painted by Ginkym Production Services Inc as a backdrop for TV series that had an episode filmed here in Hope. It is on the side of the 'King Pin Lounge' on Wallace Street. The series is called Untamed and I think it will air on National Geographic TV. The mural is to honour our First Nations people of the Sto:lo nation. Hope was also the backdrop for the film Rambo: First Blood starring Sylvester Stallone forty years ago. He blew up a bridge and our Shell gas station! They replaced them after shooting the film. Tony Pavick``
(Glenn Hauser, OK, WORLD OF RADIO 2260)

** CANADA [non]. Re my log of CY9C: Experience the CY9C DXpedition on the rugged and remote St. Paul Island, located off the coast of Nova Scotia, Canada. In this exclusive on-island interview, team member Craig Thompson, K9CT, provides an in-depth look at St. Paul Island, ranked 50th on the DXCC most-wanted list. He discusses the island’s challenging weather, its historical significance, and the extraordinary efforts required to reach this isolated location, including the rare use of helicopters. Craig introduces the dedicated team of operators and details the radio and antenna capabilities driving the CY9C operation. Gain insights into the leadership and teamwork that keep the mission on track in such a demanding environment. As the DXpedition enters its final days, the team encourages radio operators worldwide to make contact with CY9C before

the operation concludes. Watch the full interview, subscribe to the channel, and join the conversation!

(via Glenn Hauser, OK, WOR)

** CUBA. Almost all RHC SW frequencies have been missing at various random chex, Sept 11; maybe 6000 remains. Rick Barton, Sun City AZ, Sept 10, says spynumbers are also missing: ``We reported weeks back the return of the Cuban numbers stations, which then promptly disappeared. If any Utility DXers have heard anything, we'd love to hear from them. I was still trying to sort out the new schedules when they went back off. My last recorded log was on Aug. 3. And it was even before that that they dropped the morning numbers broadcasts from 1600-1857 UTC.``

That`s not surprising, since numbers and RHC obviously have been sharing same transmitters, now almost all broken. CRI relays maintain on 9790, Rebelde on 5025 (Glenn Hauser, WORLD OF RADIO 2260)

The Other Side: ``The evidence of Cuba’s imminent collapse is overwhelming --- CIBERCUBA September 9, 2024

It's September 2024, and Cuba is on the brink of a humanitarian catastrophe. The collapse of the country's industries, infrastructure, and public services is accelerating exponentially (problems are multiplying rather than gradually increasing) due to 65 years of accumulated deterioration under communist rule plus the regime's lack of resources to fix the country's problems due to its disastrous response to the COVID-19 pandemic, the loss of aid from Venezuela, and the mass exodus of at least 11.4% of the country's population in 3 years (70% of them of working age). The island's energy, water, transportation, and health infrastructure could collapse simultaneously, as they are interconnected and a failure in one could lead to failures in the others...``
https://www.europesays.com/1461618/
(via Glenn Hauser, OK, WOR)

** CUBA. 5025, Sept 13 at 0651, S9+40/45 of dead air in Spanish from R. Rebelde. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 13 at 1449, S5/S8 of suptorted Spanish, I think, about all that`s left of RHC, where something`s always very wrong (Glenn Hauser, OK, WOR)

** CUBA. 5025, Sept 14 at 0411, R. Rebelde is OFF rather than merely dead air. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 6000, Sept 14 at 0414, RHC English S9+30/40 but distorted. Unfound on any other frequency such as 9700 or 15230. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 6000, Sept 15 at 0418, RHC English S9+50 direct but overmodulated/distorted. It`s always something wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9790, Sept 15 at 0421, CRI relay only S8 and JBM = just barely modulated. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760 & 15140, Sept 15 at 1501, for the record, Sunday-only RHC Esperanto missing from both known frequencies as to be expected. I expect the first airing at 0700 has also been missing; what about the

third airing Sunday afternoons at uncertain time and frequency? (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 16 at 0423, S9/+10 of suptorted music, audible at peaks, presumably RHC Spanish as not // 6000 RHC English. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 17 at 0338, S8/9+10 of dead air in Spanish from RHC where something`s always wrong. The Other Side:
``Agriculture -- the first law of Castroism: even when something goes very wrong, it can always get even worse. If the Ministry of Agriculture granted 100 pesos of credit for each fruitless plan, measure, resolution, order, strategy, law, and agreement it has issued, Cuba's fields would not be overrun with marabou. Rafaela Cruz La Habana 17 Sep 2024 - 16:26 CEST...``
https://diariodecuba.com/economia/1726583174_57220.html
(Glenn Hauser, OK, WOR)

** CUBA [non]. 3955 & 6070, Sept 14 at 1915, Channel 292 with `From the Isle of Music` featuring classical music for a change; that sure is nice. From Cubadisco 2024 award winners. I notice that the two frequencies are several sex out of synch, why?: 6070.001+ and 3955.002- both S9/+10 and equally noisy into UTwente with considerable fading. At least in synch mode, 3955 has intermittent het but can`t locate it to a specific frequency by side-tuning. Need to narrow bandwidth, unfortunately. 1933 inserts Ch 292 IDs in German and Spanish by YL voice, AI? She also solicits more funding for more power and/or more than monthly programs. It seems UBill is playing commercial - pardon the expression, recordings with labels, in what format, CD? Repeats at 2300 (Glenn Hauser, OK, WOR)

** CZECHIA [non]. see U S A: WRMI 9955

** EAST TURKISTAN. 15590, Sept 13 at 1452, informal M&W conversation about how a taxi driver managed without GPS, American English so has to be CRI; yes, as sked via Urumqi, 308 degrees to Europe, the SSOB, S8/S9 but with very heavy flutter. The GC path to Enid from Urumqi in the northern lobe of E.T., passes only a few degrees on the Russian side of the North Pole; while Kashgar site in the western lobe of E.T., passes only a few degrees on the Greenland side of the North Pole (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 15445, Sept 16 at 0425, Chinese-sounding songs, S9+20 with heavy trans-polar flutter, 0430 ID in Russian as Р. Китая = R. Kitaya. Aoki shows 0400-0600 via Kashi-Saiba, E.T., land of imperialist ChiCom genocide against Uighurs and other Moslems. One of best signals on band (Glenn Hauser, OK, WOR)

** GERMANY. see CUBA [non]

** ISRAEL [non]. 9955, Sept 16 at 0412, WRMI not off the air after 0400 as usually happens UT Mondays, rather English with news about Israel, Hamas. Must be the WRN relay whose North American service does contain Israel Radio at 0400-0500 daily. Does I.R. know or even care that is back on SW? WRMI System B program grid claims internet-only during that hour. Also Sept 16 at 0647 check, Spanish no doubt RFI relay hour, which WRMI grid still claims is an hour earlier at 05-06, internet only except weekends. Need to check what really air at 05-06: from WRN it would be Prague & Slovakia; and at 06-07 not RFI from WRN but DW and NHK. 5010 was off this UT Monday as usual instead of TOMBS (Glenn Hauser, OK, WOR)

** KURDISTAN [non]. 11540, Sept 16 at 0416 music and talk, probably Dengê Gel and/or Erdowan jammer. No other signals in the 11.5s. EiBi shows site ARMENIA for D.G.; Aoki only on 11535 as Uzbekistan. While

not always on 11540, Gianni Serra also reported this the night before:

``11540-CLANDESTINE Radyoya Dengê Gel (People's Voice Radio), in listed Kurdish 09.15.2024 0558-0615 (11539.996-.995 kHz per UTwente, very good), playing two local chants, at 0600 brief tune, woman very long speech (ment Îraqê, Iran, rejîma Îranê); good in SSB sync with nonstop rapid QSB and lite QRN rustle/almost good in AM; in // <denge-gel.org> in streaming with some seconds of delay (Serra, Roma, Italy)`` (Glenn Hauser, OK, WOR)

** MADAGASCAR. 13810, Sept 16 at 0420, M&W in unID lang, S9+20/30, the SSOB by far and almost the OSOB, i.e. BBC Somali until 0430* as sked M-F only from 0400 per EiBi (Glenn Hauser, OK, WOR)

** MEXICO. 28276 CW, Sept 16 at 2204, dash and XE1JAL/B, previously logged last September and October. WGB list: ``28276 XE1JAL/B - Xalapa Veracruz MEX EK19mm - #0 (10 Sept 2024) Note: ID + grid + 3" carrier`` (Glenn Hauser, OK, WOR)

** NICARAGUA. see URUGUAY [and non]

** NORTH AMERICA. 7475 AM, Sept 12 at 0632, JBA S6/S7, sure sounds like the tones of Josiah on Station YHWH, at a much later hour than usual; and LSB tuning required because of utehash on the plus side. EiBi shows only other 7475s: CNR1/Firedrake jamming at 23-24, and R. Thailand English at 1800-1930. Aoki and HFCC Sept 11 show only Thailand (Glenn Hauser, OK, WORLD OF RADIO 2260)

** NORTH AMERICA. 7475, Sept 13 a 0258, Station YHWH, anti-Christ pirate is JBA (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Sept 14 at 0418, pirate YHWH is JBA with undermodulated talk, S8/S9 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Sept 15 at 0423, Station YHWH pirate is S6/S8 but undermodulated so JBA. Somewhat better still on at 0520 when I can make out a few words (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Sept 17 at 0335, anti-Christ pirate Station YHWH, S9/+10 undermodulated vs storm noise (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.9, Sept 13 at 1455, JBA carrier on the signature frequency of that pirate last known as Hikari FM, allegedly just across the AZ border in Mexico. The op told Dan Robinson he hasn`t decided what to call it next when he gets stuff fixed and powered up (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.9, Sept 16 at 0414, open carrier, should be enough direct to detect modulation if any, from pirate Hikari FM or whatever (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.9, Sept 17 at 0340, JBA S6/S7, finally some modulation audible direct, music, 0342 announcement seems English but too weak to copy, 0343 back to music, choral? I emailed to the Hikari FM address, but no reply yet. EiBi shows location as Choya Bay, Sonora, which is what the pirate op once said. Or Cholla, that`s just west beyond Puerto Peñasco on a little peninsula into the Sea of Cortez (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 780, Sept 14 at 0401, WBBM is getting heavy rock music QRM, must be cheating DAYTIMER, KSPI Stillwater, better on E/W loop than N/S shortwire. I try to // translator on 94.3 into DX-398, but tropo is up from Kansas, Bott owning channel. Still at 0419, S9+10. (I do get the real separately programed KSPI-FM on 93.7

with RDS stuck at tune in: ``ILLWATER``, indeed! later scrolls to ``STILLWATER`S SPI 93.7``). Back to 780 at 0648, still rock vs WBBM, and 0651 ``94.3, Stillwater`s alternative`` non-ID, so that clinches it. I assume they also stillcall themselves ``Pete 94.3`` after the OSU ``Pistol Pete`` politically incorrect mascot. Perhaps only a campus shooting there would make them reconsider. Anyhow, licensed as D1 250 watts -- ND daytime ONLY. WBBM is ruined here but the Stillwaterians are totally blocked from hearing one of few genuine all-news stations remaining (Glenn Hauser, OK, WOR)

** OKLAHOMA [non]. 780, Sept 15 at 0414 UT and later, WBBM Chicago in the clear, no daytimer KSPI Stillwater on air tonight unlike last night (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non?]. 800, Sept 17 at 0635 UT, usual dominant signal from KQCV OKC has some very distorted QRM on this frequency only. Not sure yet whether local, need to check on other radios. No sign of the noise in daytime at 1710. NRC AM Log shows *all* other conterminous US 800s have less than KQCV`s 1000-watt night power. XEROK is kaput, not mentioned at all in 2024 IRCA Mexican Log. There are a few more XEs still on 800; higher-powered Canadians; and PJB (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non?]. 800, Sept 18 at 0635 UT, KQCV OKC again tonight with continuous QRM, extremely distorted seems like music, right on same frequency only. Does not match anything on 780, 790, 810 or 820. This time I DF it with the altazimuth wrist-mounted DX-398: peaks NNW/SSE at same angle as KQCV. Possibly out of KQCV itself, but again no sign of it in daytime check after 1430. Is anyone else hearing this? Based on DF alone, but a few possibilities: CHAB Moose Jaw SK, WSHO New Orleans LA, XEQT Veracruz -- but none of them very likely by power and distance. CHAB & WSHO are OK in remote daytime chex 1745. How about PJB? Own Bonaire SDR tied up as often. Next time I should check remotes when I am hearing that, especially the one in OKC (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1170, Sept 13 at 0642, ``News on 6`` KOTV promo for Dallas Cowboys radio network on Sunday afternoons - so is apparently not 100% TV audio simulcast. But why broadcast the enemy? (Glenn Hauser, OK, WOR)

** OKLAHOMA. FCC change info for Sept 11: ``KOKJ-LP 95.1 Enid OK initial calls for new station`` (via Mike Bugaj, WTFDA, FMDX-NA iog) No sign of it on-air yet. Will overcome the radio war between KICT Wichita and KQCV Bott OKC; and probably impossiblize the KOKC-1520 translator on 95.3 which really gets out, and difficultize what has been a good ``open`` DX frequency 94.9. Would you believe that searching FCC LMS on KOKJ hits instead DKOKJ-LP, Elk City TV deleted a dekayear ago! FCC FM Query: zero results! We find it by searching on 95.1 Enid:

EDUCATIONAL PURPOSE --- WE OFFER THE OPPORTUNITY FOR PEOPLE TO LEARN BROADCAST RADIO AND THE TYPES OF MEDIA THAT ARE ASSOCIATED WITH IT, WITH HANDS ON APPROACH THROUGH AN INTERNSHIP. RADIO MEDIA LTD WAS REGISTERED IN THE STATE OF OKLAHOMA BY THE SECRETARY OF STATE ON THE 3RD DAY OF OCTOBER, 2013 (FCC via Glenn Hauser, Enid, WOR)

** OKLAHOMA. 98.5, Sept 16 at 0559 UT, Enid translator is // 99.9 KVBN-LP. This is a change for the 98.5 source, no idea when it happened as I seldom listen to either but 99.9 had a joint ``KVBN`` ID for both frequencies. This would be news to FCC and WTFDA. FCC FM Query still claims 98.5 K253BC, licensed to Paul Regier, relays KGVV which is 90.5 in Goltry, 14 kW, ``The House of Praise / The Love Station``. Goltry is not far away and hardly needs a translator in Enid. But KVBN gets a stronger 250 watt signal on 98.5 than 78 watts on 99.9. Both WTFDA and FCC show 98.5 & 99.9 at considerably different coordinates.

But the WTFDA FMDB shows 98.5 K253BC relays KLVV 88.7! Hardly: that`s in Ponca City, once a semi-local signal in Enid but now blocked by another translator here. Are translator licensees free to change their inputs without notice? I searched the WTFDA FMDB only by city: Enid, so I see some other wrong info:

93.1 K226BR of KIMY 93.9 Watonga has been OFF THE AIR for many years. So what if it may officially still be licensed?
96.9 KQOB quit relaying KZLS 1640 a few years ago; Freedom 96.9 is not also on MW, as 1640 became // 1390 KCRC with sportstalk. 96.9 tho licensed to Enid is in effect a full-power OKC station, site closer to

there than here. Several other local signals are missing since they are licensed to outlying towns: besides gospel huxters, 95.7, 97.7, 106.3, same group as 107.1, 96.9, 1640, 1390 (Glenn Hauser, Enid, WOR)

** PUERTO RICO [and non]. 391 MCW kHz, Sept 15 at 0535 UT, ND beacon DDP, 2000 watts at San Juan/Dorado - Luís Muñoz Marín Intl AP. Tuning upward, first copied at 389 USB, audible only on E/W loop into R75. Great to hear this again, one of few such remaining active beyond North America. My last previous log:

``391 MCW kHz, Dec 31, 2023 at 0418 UT, DDP, 1 or 2-kW NDB at San Juan/Dorado, again at 3677 km = 2284 stmi. Must be alert for 369 ZDX Antigua, 323 TAB T&T``

But current RNA list shows ZDX 369 last logged 2024-02-19; and TAB 323 Trinidad last logged 2024-08-25 with ``0`` watts. Are there any others in Caribbean, Central or northern S America still active? (Glenn Hauser, OK, WOR)

** SAUDI ARABIA [non]. 11935.7 approx., Sept 12 at 1625, nothing but rapid chirping audible at UTwente, Iran jammer? vs Yemen service, S9+20/30. AMSync will not lock onto any exact frequency. ACI from China 11940 (Glenn Hauser, OK, WOR)

** SAUDI ARABIA [non?]. 11935.8 approx., Sept 13 at 1457 direct, S4/S5 nothing but chirps audible, Iranian jamming? Cannot pin on an exact frequency (Glenn Hauser, OK, WOR)

** SAUDI ARABIA [non?]. 11936.143+, Sept 18 at 1806, very rapid chirping vs Yemen service, S9+20. Jamming from Iran? UTwente flails to lock onto when tuned to 11935, but finally stix here when tuned to 11936.00 (Glenn Hauser, OK, WOR)

** SOLOMON ISLANDS. 5020, Sept 14 at 0713, JBA carrier, obviously SIBC in absence of 5025 Cuba. Might become listenable if I were up later. Honiara sunset today is 0717 and near-equatorial, varies little during year, 0708/0735 UT (Glenn Hauser, OK, WOR)

** SPAIN. 17855, VG direct, also 17715, 15520 but 15390 still off, Fri Sept 13 at 2200, token English from SNR. 2202 news about strained relations with Venezuela as Maduro`s winning opponent has taken asylum in Spain. 2208 feature interview about an exhibition in Santiago, apparently the one in Chile, stemming from the ship Winnipeg which transported refugees from France to Valparaíso in 1939 (Glenn Hauser, OK, WOR)

** SPAIN. 17855, 17715, 15520 but still not 15390, Monday September 16 at 2159, token English from SNR after 2200 timesignal accurate to WWV, S9+20/30 on 17855. Preview interview to be about tourism in Spain this summer, problems in Balearix and Barcelona, with director of World Tourism Organization. News leads with two Spaniards detained in Venezuela, wrongfully accused of spying and planning assassinations. I think they said some Americans were also involved (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Sept 17 at 2158, no token English on Tuesday but checking SNR Ladino reception anyway. VP direct S5/S8 with pulsing on the plus side. This NAm frequency at S6/S8 is *weaker* than 17715 to SAm, S9/+10 with flutter, so something`s notright at Noblejas in addition to prop disturbance. 15520 also on and 15390 also still off. Estimated frequency at 2200 of the pulsing, never noticed before: 17855.7. Is it REE transmitter itself? Into Maryland SDR at 2220, 17855 S3/S5 with flutter and 17715 S5/S7 (Glenn Hauser, OK, WOR)

Product: Geophysical Alert Message wwv.txt
Issued: 2024 Sep 17 2100 UTC
Prepared by the US Dept. of Commerce, NOAA, Space Weather Prediction Center
Geophysical Alert Message
Solar-terrestrial indices for 17 September follow.
Solar flux 165 and estimated planetary A-index 72.
The estimated planetary K-index at 2100 UTC on 17 September was 3.67.
Space weather for the past 24 hours has been severe.
Geomagnetic storms reaching the G4 level occurred.
Solar radiation storms reaching the S1 level occurred.
Space weather for the next 24 hours is predicted to be minor.
Geomagnetic storms reaching the G1 level are expected.
Radio blackouts reaching the R1 level are likely.

** SPAIN. 17855, Wed Sept 18 at 2201, token English from SNR, S9+30/40 direct, 2202 news, something about democratic reforms proposed, such as decriminalizing insulting royalty. 2212 check, 17715 back to weaker than 17855 since it`s toward S America, but today is also fluttechoey unlike the others: 15520 sufficient and 15390 still AWOL (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005+, Sept 13 at 2159, VOT IS at S9+20 direct but extremely heavy rapid flutter, 2200 s/on as if it`s 1230 on 17620. Something`s always awry at Ankara. 2221 into UTwente when measured S9+55 without flutter, `Turkish Folk Tales` about the Woodcutter and the Bear; 2227 music. 2231 ``always-by-your-side`` promo and `That`s Why` repeat from last week still about lithium. 2241 TRTVOTVorld in 41 languages promo, music. 2246 ``always-by-your-side`` promo again, music. 2251 ``with-you-every-hour`` promo, s/off as if 17620, awry and off by 2252* and if there were any IS it was very brief while I was distracted. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005, Sept 14 at 2214, VOT English not off the air, S9/+15 into UTwente, considerably weaker than normal but sufficient. `The Energy Agenda` is underway until 2218 music. 2222 multi-lingual ID filler reel. 2224 song. 2229 `Turkey`s Geomarked Products` repeat about copper handicrafts from Marash(?). 2236 ``with-you-every-hour`` promo, music. 2241 ``always-by-your-side`` promo, music. 2246 multi-lingual ID filler reel AGAIN this hour. Something`s always awry at Ankara. 2248 music. 2252 s/off as if the 1230 on 17620. 2253 IS to 2255.7* chopoff (Glenn Hauser, OK, WOR)

** TURKEY. 11785.001-, Sept 15 at 2200, no signal from VOT English into UTwente: BUT cuts on carrier at *2201, no modulation and off at 2202*. Something`s always erroneous at Emirler. They tried to start and failed again. Signal was only S9+15, weaker than usual, but would have been sufficient. Nor did it resume later in the hour. So we miss this week`s `Letterbox`, if there were a new one, and I also missed checking for the possible final repeat after 0300 on 7275 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005-, Sept 16 at 2158, VOT not off the air, IS and English IDs, S9+10/20 direct. 2223 into UTwente when measured, S9+45 during `The Energy Agenda`. 2224 music. 2227 more music. 2232 `That`s Why`, about the Hittites who flourished in Anatolia, 1600-1200 BCE, and after a few mins, more & more music. 2252 headlines: Gaza death toll 41,226, and *rump not assassinated. 2253 s/off as if the 1230 on 17620 and IS. 2256 restart IS with German IDs, until 2258.3* chop. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

Product: Geophysical Alert Message wwv.txt
Issued: 2024 Sep 17 2100 UTC
Prepared by the US Dept. of Commerce, NOAA, Space Weather Prediction

Center
Geophysical Alert Message
Solar-terrestrial indices for 17 September follow.
Solar flux 165 and estimated planetary A-index 72.
The estimated planetary K-index at 2100 UTC on 17 September was 3.67.
Space weather for the past 24 hours has been severe.
Geomagnetic storms reaching the G4 level occurred.
Solar radiation storms reaching the S1 level occurred.
Space weather for the next 24 hours is predicted to be minor.
Geomagnetic storms reaching the G1 level are expected.
Radio blackouts reaching the R1 level are likely.

** TURKEY. 11785.004+, Sept 17 at 2157, TRT VOT IS & ID direct at S9+10, but really unusable by English program start 2200 due to extreme propagation disturbance. By 2217 when measured into UTwente synching onto weak S7 signal, but no sound. Later in hour, no signal at all (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005, Sept 18 at *2200.3, VOT carrier cuts on late, dead air at first and powering up from S8 to S9+20 as monitored direct; 2201 brings up modulation as olds is starting. Something`s always erroneous at Emirler. Recheck 2214 ending `Review of the Turkish Press`, into a new segment I had not heard before, about inventions; starting with assassination of Chicago Mayor Harrison on 28 October 1893. This led to improvements in body protexion: steel armor and shields obsolete. Something about a Polish immigrant`s work. Dr. George E. Goodfellow discovered that someone avoided death because a bullet hit his handkerchief in pocket, and this led to bulletproof vest invention, as he demonstrated by having an assistant fire at him point-blank. Never explained materials made of, kevlar never mentioned! But show outro as `Unscripted Twists of Fate` -? or more likely, `Unexpected-`? 2222 music. 2233 recheck into UTwente when measured, S9+45, more music. 2238 ``always-by-your-side`` promo, `Sports Panorama`. 2247 music. 2252 s/off as if on 17620 at 1230. 2253 IS. 2256 restart IS with German IDs. 2300 ~correct timesignal and s/on German, 2301 Alten to 2302.6* chop. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U S A. ND beacons audible tnx to lowering noise level - only S7/S8 and improving conditions, Sept 15 at 0522-0527 UT on NRD-545 with E/W longwire:
329 MCW, PMV, 25 watts at Plattsmouth NE, last logged Jan 28, 2024
344 MCW, JL, Joplin MO, 0 watts in RNA list = I suppose, unknown power, `Lunns`
353 MCW, LI, Little Rock AR, 400 W, `Lasky`
356 MCW, ODX, Ord NE, 25 W
After 0535, I compare on R75 with E/W loop; different results:
251 MCW, AM, Amarillo TX, 400 W, `Pande` -- but see PUERTO RICO!
(Glenn Hauser, OK, WOR)

** U S A. 395 MCW kHz, Sept 17 at 0650 UT, ND beacon CA is JBA, 25 watts from Newton `Harvs`, Kansas. Had been seeking this for longtime and suspected off. RNA list shows it last logged on 2024-02-17. Always weaker than another KS, HRU on 407, 25 watts from Herington; but now HRU is inaudible. RNA says last logged 2024-09-05 (Glenn Hauser, OK, WOR)

** U S A. Sept 18 at 0645-0651 UT, MW NDB bandscan hits a lot of intriguing JBA carriers, but no IDs audible, still plenty of storm noise. From RNA listings and previous monitoring experience, I guess them to be:
305, RO, Roswell NM, 400 watts
326, MA, Midland TX, 400 watts
338, TU, Tulsa OK, ``0`` watts
344, JL, Joplin MO, ``0`` watts

346, YXL, Sioux Lookout ON, 500 watts
359, SDR, Snyder TX, 25 watts, but off?
379, RUE, Russellville AR, 25 watts, ``RU``
384, JB, Lumberton NC, 0 watts, only listed, doubtful
385, HO, Hot Springs AR, 50 watts
404, HU, Hutchinson KS, 25 watts
407, HRU, Herington KS, 25 watts
420, FQ, Fairmont MN; PK Olathe/Herbb KS; or TU Tupelo MS, each 25 watts

Only ID copied this session at 0650:
395, CA, Newton/Harvs KS, 25 watts (Glenn Hauser, OK, WOR)

** U S A. 18163-USB, Sept 13 at 2205, W6A calling CQ Route 66 On the Air, from Santa Mónica, says running 700 watts, lead station of special event? Pronounces it ``Rout`` rhyming with doubt, so why isn`t it spelt Roubt? After zero activity on 28, 24 and 21 MHz bands, first phone signal I find. QRZ.com:

``W6A USA flag USA, Route 66 on the Air 2024 - Santa Monica, Post Office Box 3471, Santa Monica, CA 90408, USA === Route 66 on the Air Special Event - September 7 through 15, 2024

Welcome to Route 66 on the Air where the Mother Road nears its terminus as it works it way through West Los Angeles and Santa Monica. Members of the Westside ARC enjoy operating W6A and W6B and being part of this fun event. Please see our Website for W6A (Santa Monica) and W6B (Los Angeles).``
http://www.qsl.net/route66/index.htm
(I lived my first 9+ years right next to Route 66 in Santa Rosa, New Mexico; and another 7 years a few miles from it in OKC) (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2259 monitoring: confirmed UT Thursday September 12 at 0130 on WRMI 5010, S7/S8 into Maryland SDR and S9+10/15 into Bonaire SDR.

WORLD OF RADIO 2260 contents: Australia, Belarus and non, Brasil, Bulgaria, Cambodia non, Canada and non, Chile, Cuba and non, Dominican Republic, Finland, France, Germany, Grenada, Japan and non, Korea North, México, Mongolia, Myanmar and non, New Zealand, North America, (Northern Mariana Islands), Palau, Perú, (Philippines), Russia, (São Tomé), Solomon Islands, Taiwan, (UK), USA, Vanuatu, unID 12195; propagation outlook - (countries along with others not in order)

WOR 2260 available from 0055 UT Friday September 13:
(mp3 stream) https://www.w4uvh.net/wor2260.m3u
(mp3 download) https://www.w4uvh.net/wor2260.mp3
Or via http://www.worldofradio.com/audiomid.html
Also linx to podcast services.

Full schedule: http://www.worldofradio.com/radioskd.html

2030 UT Friday IRRS 1323-Italy;
2200 UT Friday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2230 UT Friday SW Radio, Germany 3975;
0300 UT Saturday WTWW 5085;
0930 UT Saturday WRMI 9455 to WNW;
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2300 UT Saturday WTWW 9475;
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
1900 UT Sunday IRRS 1323-Italy;

2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

As a non-commercial service, voluntary financial support appreciated. Thanks this week for a contribution via PayPal in US funds but not necessarily to woradio at yahoo.com, ``Pleased to once again express my appreciation and admiration. 73, peace, and good health de Jim Gershman, K1JJJ in Rhode Island!``

One may also contribute by MO or check on a US bank in US funds to: Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed Friday September 13 at 2034 the 2030 on IRRS SW via AM Italian, 1322.995, poor S8 into UTwente with ACI.

Also confirmed Friday September 13 at 2201 on WRMI 9955, S9/+10 poor direct. Better S9/+10 but noisy into Pardinho, Brasil SDR. No jamming audible as many Cuban SW transmitters are broken.

Also confirmed Friday September 13 at 2242 the 2230 on SW Gold Radio, Germany, 3975.000+, S8/9+5 and noisy into UTwente. Next:

0300 UT Saturday WTWW 5085;
0930 UT Saturday WRMI 9455 to WNW;
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2300 UT Saturday WTWW 9475;
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed UT Saturday September 14 at 0300 on WTWW 5085, VG direct. As usual followed by about a minute of music before cutoff 0330* without ID or sign-off announcement.

Also confirmed Saturday September 14 at 0955 the 0930 on WRMI 9455, S5/S8 direct: can only check this one when I happen to awaken during that semihour.

Also confirmed Saturday September 14 at 1441 the 1430 on SW Gold Radio, Germany, 6160.000+, S9 into UTwente.

Also confirmed Saturday September 14 at 1600 on WRN North America webcast. There is always a several-second pause between their intro and my start; not a problem but I wonder why, as there is no initial deadair on my files.

Also confirmed Saturday September 14 at 1737 the 1730 on SW Gold Radio, Germany, S9/+5 on 6160.000- with ACI from 6165; and S9+5/10 on 3975.002+ into Utwente.

Also confirmed Saturday September 14 at 1930 on WRMI webcast only, and WRN North America webcast.

NOT confirmed on WA0RCR, 1860 AM, MO, nominal 1930v Sat Sept 14: This Week in Amateur Radio still playing by 1955 when remote in IL times out, which I am having to use since usual nearby one in Warrenton MO is offline. Next:

2300 UT Saturday WTWW 9475;
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed Saturday September 14 at 2300 on WTWW 9475, VP S8/S9 into UTwente, so not aimed at Europe? ACI from 9470. At 2259.5 had dumped out of PPPP for ID and WOR on time. 9475 of course VG direct.

Also confirmed UT Sunday September 15 at 0005 the 0000 on WRMI 9955. Bonaire SDR not available but I see on Kiwimap a new? one in Cundinamarca, so try it: good, S9+10/20. It reads 12 Hz high for WWV and me.

Also confirmed UT Sunday September 15 from 0315, the 0315v on WA0RCR, 1860 AM, MO, right on nominal time! S9/+15 into KM4RT SDR near Memphis; S9/+10 into W8BUG SDR Knoxville but which lax a waterfall. Next:

Also confirmed Sunday September 15 at 1900 on IRRS SW via AM Italia, 1322.995, S9+5 into UTwente across Europe.

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed Sunday September 15 at 2158 the 2130 on SW Gold Radio, Germany, 3975.003 at S9+5 and much stronger than // 6160.001+, JBA S7 with disturbed

conditions.

Also confirmed Sunday September 15 at 2330 on WRMI 7570, S9+15/25 into Georgia SDR but with lite RTTY warble underneath. Immediately followed `cello music with no ID break.

Also confirmed UT Monday September 16 at 0030 on WRMI 7780, S9/+10 into Georgia SDR.

Also confirmed UT Monday September 16 from 0300.7 on Area 51 via WBCQ 6160 -71 Hz = 6159.929, S5/S7 into Maryland SDR, following Johnny Lightning who gotta go and an insert about contacting Scott Becker.

Also confirmed Monday September 16 at 1935 the 1930 on SW Gold Radio, Germany, 6160.001 at S8/S9 and 3975.003- at S9/+5 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed UT Tuesday September 17 at 0330 on WRMI 7780, S9+30/40 direct after `Everglades` ID.

Also confirmed Tuesday September 17 at 1300 on WRMI 9955, S9 direct.

Also confirmed Tuesday September 17 at 2000 on IRRS SW via AM Italia 1322.995+, S9 but noisy into UTwente across Europe. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed Tuesday September 17 at 2330 on WRMI 9395, S9+15 into Maryland SDR.

Also confirmed Tuesday September 17 at 2331 on Shortwave Gold Radio, Germany, 3975.002+, JBA S7/S8 noisy into UTwente.

Also confirmed Wednesday September 18 at 1930 on SW Gold Radio, Germany, 6160.001+ at S9+10/15 and 3975.003 also at S9+10/15 into UTwente.

Also confirmed Wednesday September 18 at 2100 on WBCQ 7490 -74 Hz = 7489.926, S9+15 into NH SDR. Next:

0130 UT Thursday WRMI 5010 to S; {confirmed}
1630 UT Thursday SW Radio, Germany 6160.

As a non-commercial service, voluntary financial support appreciated. Thanks this week for a contribution via PayPal in US funds but not necessarily to woradio at yahoo.com, ``Pleased to once again express my appreciation and admiration. 73, peace, and good health de Jim Gershman, K1JJJ in Rhode Island!``

One may also contribute by MO or check on a US bank in US funds to: Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Fri Sept 13 from 2345, into usual NH SDR: 6160 VP, no sigs on 3265, 5130 NOR 7490!! Something`s wrong with this Kiwi. Switch to Maryland instead: there, 7490 -72 Hz = 7489.928 is VG S9+10/20 with FKB; 6160 -72 = 6159.928 is S5/S7 with TOMBS; 5130 & 3265 agreeably OFF. So a rerun is likely. Listening to 7490-, after FKB wraps up, we hear a re-echo of his last words several sex later. NO ID, no disclaimer, and rough start to playback of last week`s AAAWWW wherein he starts saying ``beaming, not streaming``. Never mind (Glenn Hauser, OK, WOR)

** U S A. 7490-, Sept 17 at 0337, WBCQ with TOMBS, S8/S9 but very unusually with Doppler flutter, i.e. frequency wobbling due to geomag storm. Aurora not quite reaching Maine nor here nor directly in between (Glenn Hauser, OK, WOR)

** U S A. 5010, Fri Sept 13 at 0650 UT, this WRMI-14 is off instead of usual BS; but 9955 WRMI-3 is JBA S6/S8 at 0657, maybe deadair instead of RFI Spanish (Glenn Hauser, OK, WOR)

** U S A. 5050, Fri Sept 13 at 0259, WRMI-4 with S9+30/40 of music so presumably resumed `Legends` after previously only carriers on 5050 or 5051 (Glenn Hauser, OK, WOR)

** U S A. 5800, Fri Sept 13 at 0259, WRMI with S9+30/40 of dead air. Self-contradictory info on WRMI skedgrid: #10 transmitter 5800 shows System D RAE Argentina at 0200-0300, System B Freedom Synergy Radio at 0300-0400. But RAE schedule shows nothing at this hour. System D shows R. República at 0200-0300 UT Tue-Sat on 5800; System B shows Slovakia in Spanish at 0230-0300, Prague in English at 0300-0330, on 9955! Maybe FSR came up later after 0300 as usual on 5800, and previously has been //9955 in yet another sked mismatch (Glenn Hauser, OK, WOR)

** U S A. 9955, Sept 17 at 0500+, WRMI still on the air with R. Prague in English, which is what`s on WRN at this time. On WRMI webcast and 9955 into Pardinho, Brasil SDR but way out of synch (Glenn Hauser, OK, WOR)

** U S A. 5935, Sept 13 at 0653-0654+, deadair from WWCR, longer than typical pregnant pauses while DGS is lighting up a cigar (Glenn Hauser, OK, WOR)

** U S A. 15150, Sept 16 at 0422, S8/S9 of dead air except for some hum, instead of dead EJOM, i.e. WMLK. Something`s botched at Bethel (Glenn Hauser, OK, WOR)

** U S A. 880, Sept 14 at 0655, Mexmx again in the mix with WHSQ, KRVN and English gospel huxter, probably KHAC AZ/NM. 0702 non-ID ``La Tremenda`` so it`s WIJR, Highland IL, slogan as in NRC AM Log, U4 1700/160 from just east of St Louis MO, day and night patterns toward SW, away from NYC - yes, always an obstacle to WCBS here, but now it no longer matters! (Glenn Hauser, OK, WOR)

** U S A. 1530, Sept 18 at 0653 UT, Mexmx mixing with WCKY, unusual. 0654 phone number in Spanish starting with AC 512, which is San Antonio TX area - or was as I well remember from living there, but it shrank in 1992 to Austin area. And on the altazimuth wrist-mounted DX398, DF SSW almost fits for that, really closer to due south. 0659 and again at 0700, IDs as ``La Raza 95.1``. Therefore per NRC AM Log, it`s KZNX, Creedmoor TX, U7 10000/220/1000/55 watts, address in El Paso, but that`s the group HQ. Creedmoor is not even indexed in my road atlas. It`s 15 miles south of Austin, 2020 census population 434.

What do you bet it`s not on 220 watt night power? KZNX last logged April 8 during Total Solar Eclipse. You might expect a TX 1530 in Spanish would be KGBT Harlingen, U8 50/10/50 kW, but night pattern disfavors the north, main lobe ESE into GOM, and it`s TUDN sports (Glenn Hauser, OK, WOR)

** U S A [and non]. IN THE AMERICAS with DAVID YETMAN is an excellent 27-minute TV series I always try to watch at the single time it airs on OETA Create channel from PBS, UT Tuesdays at 0300 - it appears that all 10 seasons of episodes may be viewed via https://intheamericas.org/episodes/
Look thru the topix which may interest you especially (Glenn Hauser, OK, WOR)

** URUGUAY [and non]. 28350 USB, Sept 16 at 2210, CX5TMJ switches from English to Spanish for contact with YN9H, Henry in NICARAGUA, also audible but weaker. QRZ.com: ``CX5TMJ Uruguay flag Uruguay, Dino Alejandro Gómez Pérez, cx5tmj@gmail.com, Castillos, Rocha, 27200, Uruguay`` with lots of photos of equipment, flags.

``YN9H Nicaragua flag Nicaragua, Henry Arauz Ubeda, Sacramento, Jinotega, JI, 65000, Nicaragua`` - already logged Sept 6, 2024, q.v. (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Noise level has abated enough and propagation improved enough to uncover some JBA carriers on ND beacon frequencies, Sept 12 at 0637-0642 UT. These are my guesses based on previous reception with no IDs axually hearable now, as in dxinfocentre.com or RNA, with listed watt powers:
245, FS, Sioux Falls SD, 400;
251, AM, Amarillo TX, 100;
267, HET, Henryetta OK, 25;
332, IC, Wichita KS, 400 or 25;
338, RYN, Tucson AZ, 400;
344, JL, Joplin MO, 25 or JA, Jacksonville FL, 400;
346, YXL, Sioux Lookout ON, 500;
404, HU, Hutchinson KS, 25;

[non]. Not unID with ID axually copiable:
255, SW, Stillwater OK, 25;
293, FBY, Fairbury NE, 25;
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 711 kHz, Sept 15 at 0540 & 0546 UT, only hit in a full 9/kHz bandscan for JBA TA carriers - presumably El Aaiún, Morocco 300 kW, a.k.a. Western Sahara - unless it`s a Cuban +1 kHz spoiler like 631, 891 and 1141 (Glenn Hauser, OK, WOR) {is Aaiun off, irregular?}

UNIDENTIFIED. 760.06 approx., Sept 14 at 0407 LAH = low audible heterodyne on plus side of 760.0 stations like WJR/KCCV. Nothing nearly that far off in mwoffsets list (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810, Sept 13 at 0637 UT, dead air atop a weaker music station, presumably the normally dominant WHB Kansas City (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Trans-Atlantic JBA MW carrier search, Sept 14 at 0353: only 855 in full 9/kHz bandscan, and it`s really JJBBA, presumably SPAIN. So many of the UK and Spain MWs are deceased or depowered. MWlist still shows 9 RNE synchros here up to 100 kW 24h but also hipowers in Romania, Ethiopia, Sa`udi Arabia (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 880, Sept 13 at 0638 and 0710 UT, Spanish music in the mix; 0708 think I heard ``Nuevo Mundo`` which would be TGJ Guatemala, vs ESPN which would be WHSQ NYC ex-WCBS; and usual KRVN Nebraska. But

there are several US SS stations listed, most likely KJOZ Conroe TX. New IRCA Mexican Log shows only one on 880 but it`s silent in Chihuahua. TGJ was one of my early memorable DX catches (Glenn Hauser, OK, WOR) See USA: WIJR

UNIDENTIFIED. 970, Sept 14 at 0359, Spanish dominant, mentions ``faul`` so a béisbol game or sportstalk about it. In NRC AM Log, only two USA SS listed, neither at all likely, silent in Florida or religious in Maryland. So Mexico: IRCA Mexican Log has four, headed by Radio Fórmula flagship XERFR Mexico City, 50/5 kW and only one other maybe, XEJ Juárez, Chihua2, 1/1 kW (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6938 AM, Sept 14 at 0416, S9/+10 open carrier. Is it a pirate or a ute? Nothing currently in HF Underground. Ricky Leong, Alberta, also had this Sept 9 at 0503 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9529.1 USB, Sept 13 at 0658, 2-way INTRUDERS in Spanish, cambios, whistling. Hardly any broadcast signals on 31mb to be bothered (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 12195, Sept 12 at 0623, S9+15/20, mystery open carrier, much stronger than hardly anything within 25mb SWBC, just a few JBA carriers, so I guess it be close by. What is it? (Glenn Hauser, OK, WORLD OF RADIO 2260)

UNSOLICITED TESTIMONIALS

``Been Missing. Hello everyone. It has been a long time since I have been able to listen to short wave. I bought a SFR and boy, these things are great. It's a SdrPlay DX. I was listening to a station out of Florida and I heard the familiar Glenn Hauser World of Radio show. In a instant it brought me back to listening to it in the 90's. Glenn, I want to thank you for the great job you do. I've read all the articles you put in Popular Communication [rather, Popular Electronics, Monitoring Times]. If I get some money together I'll buy you a pizza and a drink. You put your life into this and I just wanted to say thank you for your efforts. I really enjoy your show and the updates in print and radio. There's always something wrong with Radio Cuba. Take care and happy listening`` (John Spicer, Sept 5)

John, Welcome back and thanks for your kind comments. 73, Glenn
